Software Developer building multi-tenant College ERP modules for academics, scholarships, admissions, and admin masters — using Next.js, NestJS, and MongoDB. Improved API latency by 25% and sped up delivery through Agile sprints and reusable UI components.

EXPERIENCE

Seratek Systems (formerly Akron System)

Kolhapur, Maharashtra

Software Developer

Jan. 2026 – Present

- Built and maintain the **Academics** and **Scholarship** modules of a multi-tenant College ERP, covering student records, course management, and scholarship allocation
- Developed admin-side **ERP master modules** (programs, degrees, config masters) and the online **Admission Form**, using a **reusable ShadCN/Tailwind component library** to speed up delivery
- Optimized NestJS **REST APIs** backed by MongoDB, reducing response latency by **25%** and improving ERP page load performance
- Ran Agile sprints with **Azure Boards** (planning, debugging, code reviews), improving delivery time by **15%**; deployed via MobaXterm SSH

Software Developer Intern

June 2025 – Dec. 2025

- Built responsive multi-role UI pages with **ShadCN** and **Tailwind CSS**, shipping dynamic forms and full **CRUD** workflows
- Built and tested **REST APIs** with NestJS and MongoDB for student, course, and scholarship modules, and implemented supporting backend validation logic

PROJECTS

Parko – Online Parking System | Next.js, Node.js, JavaScript, Leaflet, Vercel

- Built a role-based parking platform supporting **3 user roles** (Admin, User, Entry/Exit Operator) for finding and booking parking spaces
- Integrated **Leaflet** maps for real-time parking location visualization; automated time-based fee calculation
- Deployed the full-stack application on **Vercel** for production accessibility and performance

Diploma Aspirants App | Android Studio, Firebase

- Built a centralized Android app for diploma students to access shared study materials in one place
- Integrated **Firebase** authentication and real-time sync to improve study access and reduce resource duplication

EDUCATION

Walchand Institute of Technology

Graduated June 2026

B.Tech in Information Technology; CGPA: 8.76/10

Solapur, Maharashtra

DKTE's Yashwantrao Chavan Polytechnic

Passed 2023

Diploma; Percentage: 82.46%

Ichalkaranji, Maharashtra

Shri Vidyasagar Highschool

Passed 2020

10th (SSC); Percentage: 81.80%

Akiwat, Kolhapur, Maharashtra

SKILLS

Technical Skills : JavaScript, TypeScript, Java, React.js, Next.js, Tailwind CSS, ShadCN, SQL

Backend Development : Node.js, NestJS, MongoDB, REST API Development, Input Validation

Delivery & Tools : Git, GitHub, Azure Boards, Agile Sprint Planning, Code Review, Debugging, Vercel, MobaXterm, Postman, Figma
